River Publishers

Model Validation and Uncertainty Quantification, Volume 3

Proceedings of the 33rd IMAC, A Conference and Exposition on Structural Dynamics, 2015

Editors:

H. Sezer Atamturktur, The Society for Experimental Mechanics, Bethel, USA

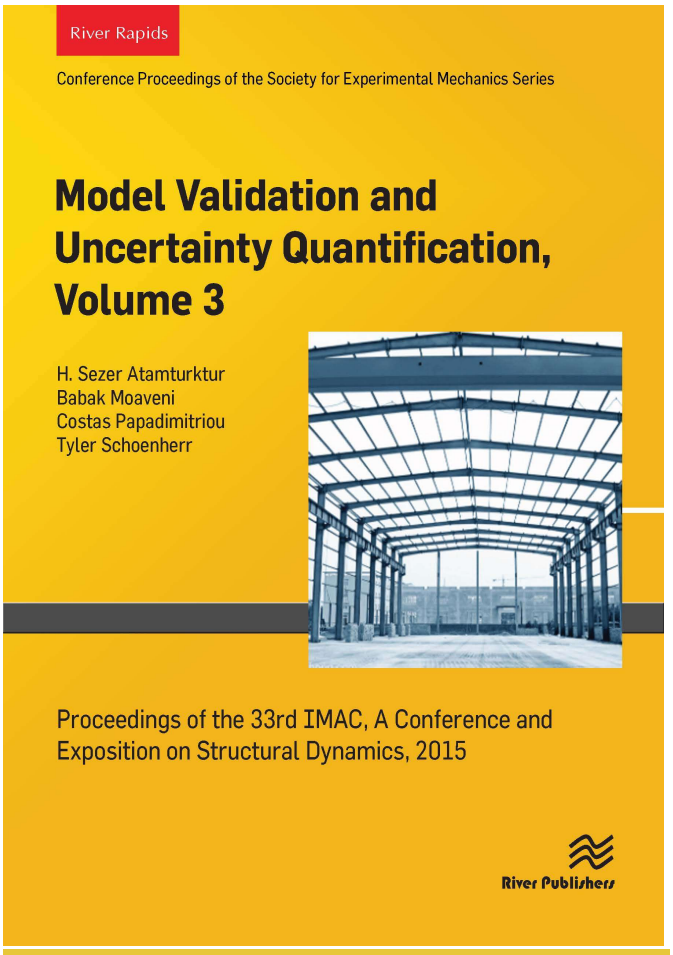
Babak Moaveni, The Society for Experimental Mechanics, Bethel, USA

Costas Papadimitriou, The Society for Experimental Mechanics, Bethel, USA

Tyler Schoenherr, The Society for Experimental Mechanics, Bethel, USA

Model Validation and Uncertainty Quantification, Volume 3. Proceedings of the 33rd IMAC, A Conference and Exposition on Balancing Simulation and Testing, 2015, the third volume of ten from the Conference brings together contributions to this important area of research and engineering. The collection presents early findings and case studies on fundamental and applied aspects of Structural Dynamics, including papers on:

- Uncertainty Quantification & Model Validation
- Uncertainty Propagation in Structural Dynamics
- Bayesian & Markov Chain Monte Carlo Methods
- Practical Applications of MVUQ
- Advances in MVUQ & Model Updating



River Publishers Series in Conference Proceedings of the Society for Experimental Mechanics Series
