Self Assembly and Molecular Electronics

Editors:

Peter Fojan, Aalborg University, Denmark

Leonid Gurevich, Aalborg University, Denmark

On behalf of the Executive Committee of the Conference “Self Assembly and Molecular Electronics” to be held in Aalborg, Denmark, in October 11-12, 2012, it is our great pleasure to invite you to participate in the Event. This Conference is organized for the first time and is intended to become a series of Conferences in the area of Self Assembly and Molecular Electronics. The Conference is intended to give an overview of the state of the art in this field.

The ambitious goal of this meeting is to gather innovative and scientifically robust knowledge and technologies in the area of Self Assembly and Molecular Electronics and involve investigators from academic, public and private Research Institutions as well as Industry to exchange ideas and knowledge. This meeting is intended to serve as a platform to promote the scientific results and progress in this area and also to inspire researchers and industry alike.

The scheme of this Conference is organized in sessions each one related to a specific topic. The topics will be introduced by invited key note lectures and supplemented with shorter oral presentations and a poster session. The first day of the Conference will end with a get together with refreshments and light snacks. In the evening it will be followed by a Gala dinner.
