

Authors' Guidelines

Please use these guidelines to ensure that your manuscript is complete prior to submission of your article.

If you have any query, please email the address listed under contact at River Publishers.

Each paper submitted will be peer reviewed to ensure quality, technical accuracy and interest to our readers.

All papers submitted should clearly:

- Identify the material being presented
- Relate to the aims and scope of the journal
- Justify all claims with evidence without exaggeration

Format of submitted text

For submission in Latex River Publishers has developed a stylefile which can be downloaded at:

http://riverpublishers.com/download/journal_stylefile_Feb_13.zip

For submission in Microsoft Word please use the template downloadable at:

<http://riverpublishers.com/download/River%20Publishers%20Journal%20Template.dotx>

You should only use the stylefile or word template provided by River Publishers.

Details of Submission

Please provide:

- Full names and post-nominal letters of author(s)
- Positions and affiliations of author(s)
- Contact address, telephone number and email address of the
author(s)
- Brief resume of author(s)
- Photograph of author(s)

- Number of word in the main text
- Number of figures and tables

Structure of your article

Title of paper

Titles are limited to 150 characters, including spaces. Titles should be concise and clearly reflect the content of the manuscript.

Abstract

Please provide a 250-word summary of the article. The abstract should be a concise reflection of the aims, methods, results, conclusions. The abstract should include the impact and significance of the findings.

Keywords

Include 3-8 keywords at the end of the page. The keywords should be those other than what is in the title

GRAPHICAL ABSTRACTS ARE WELCOME

Main Text

Note, define notations and abbreviations when first used in the article.

Introduction

A concise, accurate, but not exhaustive, summary of current knowledge, with reference to relevant previous and recent works in the field. This should be accompanied with the aims of and justification for the work contained in the submitted manuscript.

Materials and Methods

Each technique used in the manuscript should be presented to allow other scientists to repeat the data. If desired, detail of the particular technique could be included in a companion SOP section.

Results

Results should be reported clearly and accurately in subsections.

Discussion

Discuss the results in the context of the literature and significance

Conclusion

A concise summary of the findings and a clear identification of the advance/contribution that this work provides to the field. This should be distinct from the abstract.

Acknowledgements

Provide details of contributors of the work and reagents etc.

Author Contribution

E.g., PR performed the experiments, wrote the manuscript and analyzed the data

Ethics

Provide a statement for any associated safety, environmental or ethical issues.

Data Availability

Omics data should be deposited and cited upon manuscript submission

References

Cite the references in numerical order (i.e., (1-3) (10-15, 28) etc).

Figure Legend

All figures must have a brief title in bold followed by a short description. The information should be sufficient for the reader to understand the figure without reference to the main text.

Figures are cited in the text in the order of reference, ie, Figure 1 etc.)

Tables

Use Arabic numbers to list the tables.

Appendices

Additional information, such as tables or mathematical calculations/derivations, supporting data etc. State if the information is only for review purpose and/or publication.

Mathematical equations

Only relevant equations should be included in the main text, and should be numbered – anything else can be added as an appendix or as supplementary information.

Image

All images must be submitted with a resolution of at least 500 dpi.

Scanned figures are not acceptable but should be uploaded in the format during creation. Please note that our production department can request

changes to the artwork when the manuscript is first evaluated (immediately after submission) AND with the first copyedit.

Copyright release

1. After the acceptance of the paper, please make sure that you have signed the copyright form. This will be sent to you for completion shortly after the paper's acceptance.
2. You are kindly requested to ensure that copyright release has been obtained for reprinted material from other sources that is used in your paper .

Submission

Manuscripts and other files should be uploaded to River Publishers' submission platform.
