River Publishers

Challenges in Mechanics of Time Dependent Materials, Volume 2

Proceedings of the 2017 Annual Conference on Experimental and Applied Mechanics

Editors:

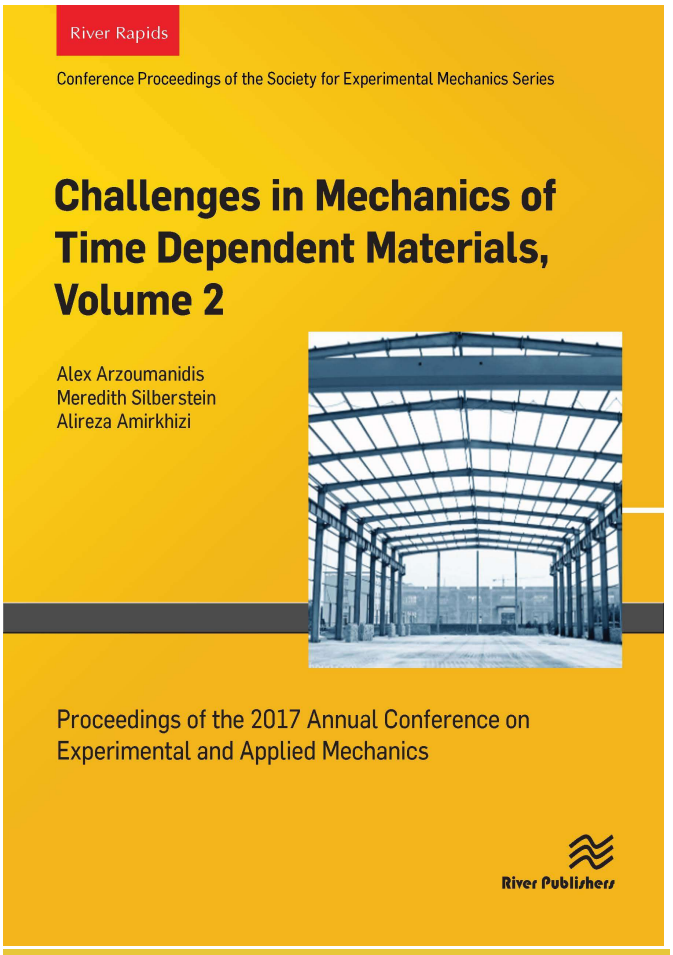
Alex Arzoumanidis, The Society for Experimental Mechanics, Bethel, USA

Mredith Silberstein, The Society for Experimental Mechanics, Bethel, USA

Alireza Amirkhizi, The Society for Experimental Mechanics, Bethel, USA

?Challenges in Mechanics of Time-Dependent Materials, Volume 2 of the Proceedings of the 2017 SEM Annual Conference& Exposition on Experimental and Applied Mechanics, the second volume of nine from the Conference, brings together contributions to this important area of research and engineering. The collection presents early findings and case studies on fundamental and applied aspects of Experimental Mechanics, including papers in the following general technical research areas:

- Characterization Across Length Scales
- Extreme Environments & Environmental Effects
- Viscoelasticity
- Structure Function PerformancePolymer Viscoplasticity
- Metallic Materials
- Fracture/Fatigue/Damage
- Composites
- Soft Materials



River Publishers Series in Conference Proceedings of the Society for Experimental Mechanics Series

e-ISBN: 9788743803256
