River Publishers

Advancement of Optical Methods in Experimental Mechanics, Volume 3

Proceedings of the 2017 Annual Conference on Experimental and Applied Mechanics

Editors:

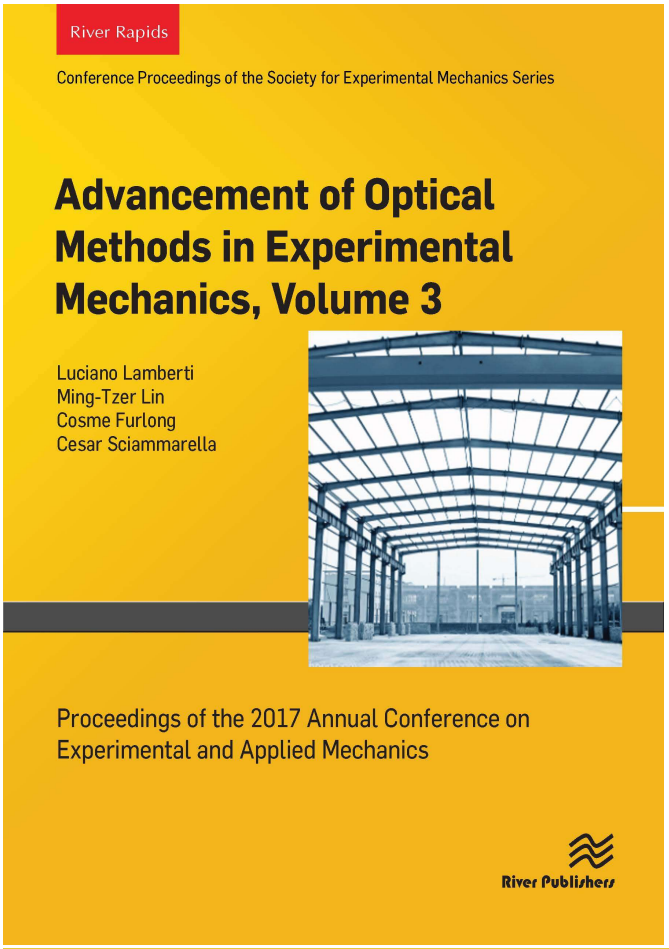
Luciano Lamberti, The Society for Experimental Mechanics, Bethel, USA

Ming-Tzer Lin, The Society for Experimental Mechanics, Bethel, USA

Cosme Furlong, The Society for Experimental Mechanics, Bethel, USA

Cesar Sciammarella, The Society for Experimental Mechanics, Bethel, USA

Advancement of Optical Methods in Experimental Mechanics, Volume 3 of the Proceedings of the 2017 SEM Annual Conference & Exposition on Experimental and Applied Mechanics, the third volume of nine from the Conference, brings together contributions to this important area of research and engineering. The collection presents early findings and case studies on a wide range of optical methods ranging from traditional photoelasticity and interferometry to more recent DIC and DVC techniques, and includes papers in the following general technical research areas.



River Publishers Series in Conference Proceedings of the Society for Experimental Mechanics Series

e-ISBN: 9788743803263
Available From: November 2017
