River Publishers

Mechanics of Composite, Hybrid and Multifunctional Materials, Fracture, Fatigue, Failure and Damage Evolution, Volume 3

Proceedings of the 2021 Annual Conference and Exposition on Experimental and Applied Mechanics

Editors:

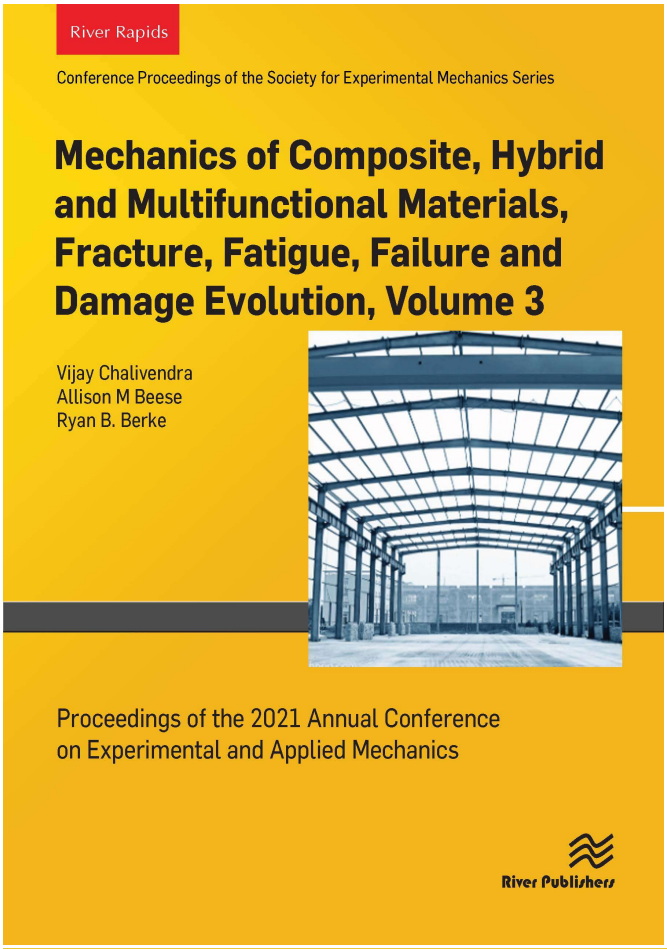
Vijay Chalivendra, The Society for Experimental Mechanics, Bethel, USA

Allison M Beese, The Society for Experimental Mechanics, Bethel, USA

Ryan B. Berke, The Society for Experimental Mechanics, Bethel, USA

Mechanics of Composite, Hybrid, and Multifunctional Materials, Fracture, Fatigue, Failure and Damage Evolution, Volume 3 of the Proceedings of the 2021 SEM Annual Conference & Exposition on Experimental and Applied Mechanics, the third volume of four from the Conference, brings together contributions to this important area of research and engineering. The collection presents early findings and case studies on a wide range of areas, including:

- Recycled Constituent Composites
- Damage Detection
- Advanced Imaging of Composites
- Multifunctional Materials
- Composite Interfaces
- Tunable Composites
- Novel Experimental Methods
- Extreme Environments
- Interfacial Fracture
- Integration of Models & Experiments
- Mechanics of Energy & Energetic Materials
- Integration of Models & Experiments
- In Situ Techniques for Fatigue & Fracture
- Microscale & Microstructural Effects on Mechanical Behavior



River Publishers Series in Conference Proceedings of the Society for Experimental Mechanics Series
