River Publishers

Dynamic Behavior of Materials, Volume 1

Proceedings of the 2023 Annual Conference on Experimental and Applied Mechanics

Editors:

Veronica Eliasson, The Society for Experimental Mechanics, Bethel, USA

Paul Allison, The Society for Experimental Mechanics, Bethel, USA

Phillip Jannotti, The Society for Experimental Mechanics, Bethel, USA

Dynamic Behavior of Materials, Volume 1 of the Proceedings of the 2023 SEM Annual Conference & Exposition on Experimental and Applied Mechanics, the first volume of seven from the Conference, brings together contributions to this important area of research and engineering. The collection presents early findings and case studies on fundamental and applied aspects of Experimental Mechanics, including papers on:

- Synchrotron Applications/Advanced Dynamic Imaging
- Quantitative Visualization of Dynamic Events
- Novel Experimental Techniques
- Dynamic Behavior of Geomaterials
- Dynamic Failure & Fragmentation
- Dynamic Response of Low Impedance Materials

Hybrid Experimental/Computational Studies Shock and Blast Loading Advances in Material Modeling Industrial Applications
