

## Pharmacological Mechanisms of Neck Muscle Nociception in a Translational Murine Model for Tension-Type Headache

**Author:** Dejan Risti?, Medical Physiology and Experimental Pharmacology, Center for Sensory-Motor Interaction (SMI), Department of Health Science and Technology, Aalborg University, Aalborg, Denmark

**e-ISBN:** 9788792982018

**Available From:** December 2012

**Price:** € 0.00

### Description:

The focus of this thesis lies on the basic research of pharmacological modulation of neck muscle nociceptive processing in translational murine model of tension-type headache (TTH), particularly in regard to potential pathophysiological TTH mechanisms and a putative impact on current and future treatment of TTH attacks.
