River Publishers Series in Energy Engineering and Systems

Combined Heating, Cooling & Power Handbook Technologies & Applications, Second Edition

Author: Neil Petchers

ISBN: 9781466553347

e-ISBN: 9788770223003

Price: \$ 300.00

[Distributed exclusively by Routledge](#)

Description:

Completely revised, this second edition of a bestseller explores the latest technology advancements and the many changes and developments in the utility and environmental regulation areas. It includes new information on the state of deregulation and market pricing as well as discussion of smart grid and other emerging programs. The environmental sections reflect the current emphasis on greenhouse gas emissions and carbon management, updates to CAAA regulations and timelines and the latest developments in the use and control of refrigerants.
