

River Publishers Series in Signal, Image and Speech Processing

## Machine Learning Methods for Signal, Image and Speech Processing

**Editors:**

Meerja Akhil Jabbar, Vardhaman College Of Engineering, India  
Kantipudi MVV Prasad, Symbiosis Institute of Technology, India  
Sheng-Lung Peng, National Dong Hwa University, Taiwan  
Mamun Bin Ibne Reaz, Universiti Kebangsaan, Malaysia  
Ana Maria Madureira, Interdisciplinary Studies Research Center, Portugal

**ISBN:** 9788770223690

**e-ISBN:** 9788770223683

**Available From:** December 2021

**Price:** € 95.00

### Description:

The signal processing (SP) landscape has been enriched by recent advances in artificial intelligence (AI) and machine learning (ML), yielding new tools for signal estimation, classification, prediction, and manipulation. Layered signal representations, nonlinear function approximation and nonlinear signal prediction are now feasible at very large scale in both dimensionality and data size. These are leading to significant performance gains in a variety of long-standing problem domains like speech and Image analysis. As well as providing the ability to construct new classes of nonlinear functions (e.g., fusion, nonlinear filtering).

This book will help academics, researchers, developers, graduate and undergraduate students to comprehend complex SP data across a wide range of topical application areas such as social multimedia data collected from social media networks, medical imaging data, data from Covid tests etc. This book focuses on AI utilization in the speech, image, communications and virtual reality domains.

**Keywords:** Signal processing, Machine learning, Deep learning, Image Processing, Speech Processing
