Editors:

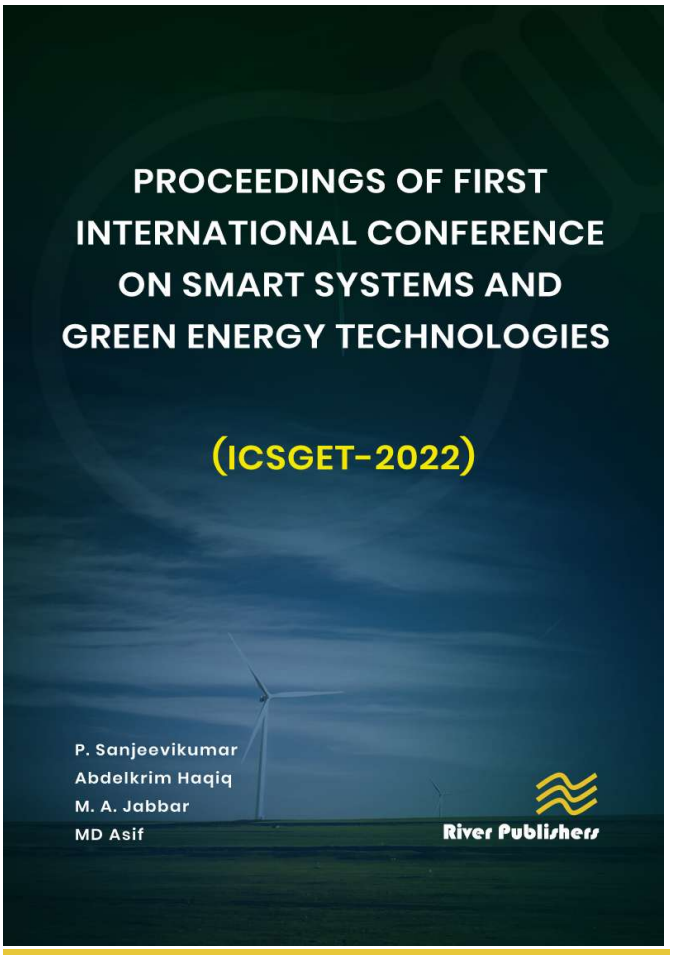

P. Sanjeevikumar, Aarhus University, Denmark

Abdelkrim Haqiq, FST, Hassan 1st University, Settat, Morocco

M. A. Jabbar, Vardhaman College of Engineering, India

MD Asif, Vardhaman College of Engineering, India

The First International Conference on Smart systems and GreenEnergy Technologies (ICSGET-2022) is conducted by the Department of Electrical and Electronics Engineering, Vardhaman College of Engineering, Hyderabad. The main aim of this international conference is to bring together researchers to facilitate knowledge sharing in emerging technologies and enhance collaboration world over. Along with researchers, the professionals and executives from energy sector, manufacturing industries, electrical power companies are invited to share their ideas and information pertaining to recent thrust areas of smart systems and green energy technologies. The conference will enable the delegates to undertake collaborative research, update their technical knowledge and to stay in tune with recent advances. The technical program consists of keynote lectures, peer-reviewed paper presentations, panel discussions and presentations by industry professionals. It is envisaged that the conference will provide a platform where opportunities for national and international collaboration amongst top universities (from India and abroad) is plentiful.
