

Introduction to Artificial Intelligence (AI)

Author: Ahmed Banafa, San Jose State University, CA, USA

Introduction to Artificial Intelligence (AI) provides a comprehensive overview of the latest trends in artificial intelligence. The book covers the state of the art in AI research, including machine learning, natural language processing, computer vision, and robotics.

The book offers a forward-looking perspective on the future of AI, exploring the emerging trends and applications that are likely to shape the next decade of AI innovation. It also provides practical guidance for businesses and individuals on how to leverage the power of AI to create new products, services, and opportunities.

Overall, the book is an essential read for anyone who wants to stay ahead of the curve in the rapidly evolving field of AI and understand the impact that this transformative technology will have on our lives in the coming years.

TABLE OF CONTENTS

1. What is AI?
2. Neural Networks
3. Natural Language Processing (NLP)
4. Computer Vision
5. Levels of AI
6. Generative AI and Other Types of AI
7. Generative AI: Types, Skills, Opportunities and Challenges
8. Intellectual Abilities of Artificial Intelligence (AI)
9. Narrow AI vs. General AI vs. Super AI
10. Understanding The Psychological Impacts of Using AI
11. Ethics in AI

Introduction to Artificial Intelligence (AI)

Ahmed Banafa

River Publishers Series in Communications and Networking

ISBN: 9788770041867

e-ISBN: 9788770041850

Available From: May 2024

Price: € 51.33 \$ 55.95

KEYWORDS:

Generative AI, ChatGPT, machine learning, deep learning, computer vision, quantum computing, affective computing deep learning , autonomic computing, reactive machines, limited memory, theory of mind, self-aware, variational autoencoders (VAEs), generative adversarial networks (GANs), autoregressive models, feedforward. neural networks, convolutional neural networks, recurrent neural networks, long short-term memory networks, autoencoders, natural language generation (NLG), driver assistance, partial automation, conditional automation, high automation , full automation
