

Topics in Modal Analysis, Volume 7

Proceedings of the 31st IMAC, A Conference on Structural Dynamics, 2013

Editor: Randall Allemang, The Society for Experimental Mechanics, Bethel, USA

Topics in Modal Analysis, Volume 7: Proceedings of the 31st IMAC, A Conference and Exposition on Structural Dynamics, 2013, the seventh volume of seven from the Conference, brings together contributions to this important area of research and engineering. The collection presents early findings and case studies on fundamental and applied aspects of Structural Dynamics, including papers on:

- Fluid Structure Interaction
- Adaptive Structures
- Experimental Techniques
- Analytical Methods
- Damage Detection
- Damping of Materials & Members
- Modal Parameter Identification
- Modal Testing Methods
- System Identification
- Active Control
- Modal Parameter Estimation
- Processing Modal Data
- Similar content being
