Sensors & Instrumentation and Aircraft/Aerospace Testing Techniques Vol. 8

Proceedings of the 43rd IMAC, A Conference and Exposition on Structural Dynamics 2025

Editor: Chad Walber, Matthew Stefanski

Sensors & Instrumentation and Aircraft/Aerospace Testing Techniques, Volume 8: Proceedings of the 43rd IMAC, A Conference and Exposition on Structural Dynamics, 2025, the eighth volume of twelve from the Conference brings together contributions to this important area of research and engineering. The collection presents early findings and case studies on fundamental and applied aspects of Sensors and Instrumentation and Aircraft/Aerospace Testing Techniques including papers on:

- Alternative Sensing & Acquisition
- Active Controls
- Instrumentation
