River Publishers

Dynamics of Civil Structures, 2026,Vol. 2

Proceedings of the 44th IMAC, A Conference and Exposition on Structural Dynamics 2026

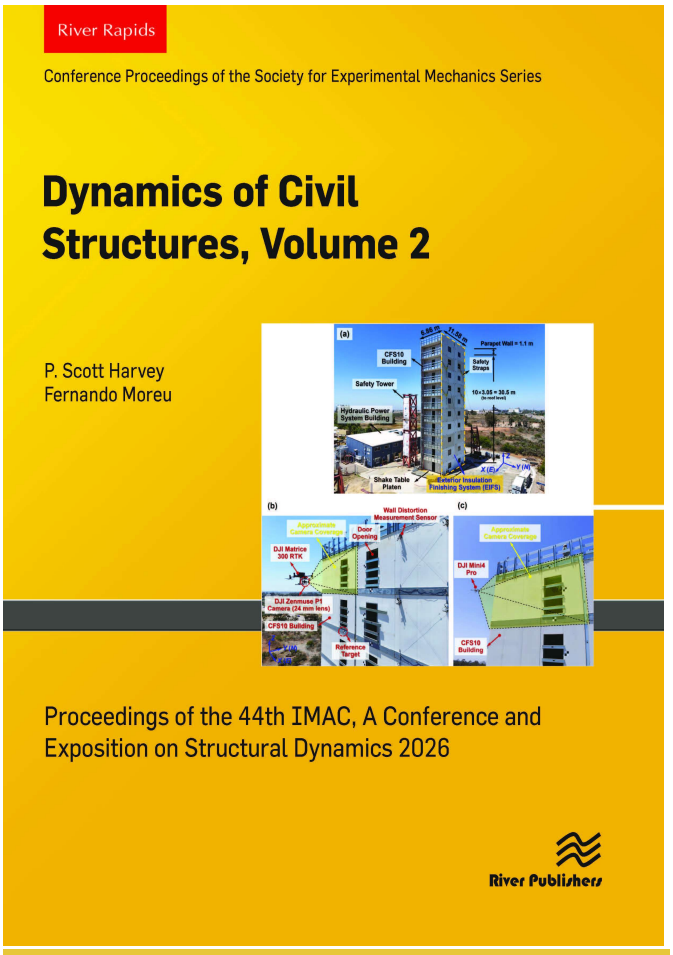

Editors:

P. Scott Harvey, University of Oklahoma, OK, USA

Fernando Moreu, University of New Mexico, NM, USA

Dynamics of Civil Structures, Volume 2: Proceedings of the 44th IMAC, A Conference and Exposition on Structural Dynamics, 2026, the second volume of ten from the Conference brings together contributions to this important area of research and engineering. The collection presents early findings and case studies on fundamental and applied aspects of the Dynamics of Civil Structures, including papers on:

- Structural Vibration
- Dynamics of Bridges, Buildings, and Infrastructure Systems
- Innovative Sensors and Measurement Techniques for Structural Applications
- Structural Control and Vibration Mitigation
- Human Induced Vibrations and Human-Structure Interaction
- Modal Identification of Structural Systems
- Human Health Monitoring Using Structural Sensing
- Field Monitoring of Vibrations

River Publishers Series in Conference Proceedings of the Society for Experimental Mechanics Series

ISBN: 9788743814412
e-ISBN: 9788743814139
Available From: July 2026
